## Rep. Lynn Jenkins (R-KS)

House · Republican (most recent term) · KS-2 · in Congress 2009–2019 ·  
Bioguide ID J000290

**Party history:** R 2009–2019. Source: term data in unitedstates/congress-legislators (CC0);  
party shown is as recorded per term there.

### Estimated net worth (from public disclosures)

| Estimate                                                                                                    | Report year   | Low           | Mid                | High             |
|-------------------------------------------------------------------------------------------------------------|---------------|---------------|--------------------|------------------|
| (a) Estimated net worth at the earliest available report (2013); the member entered office earlier, in 2009 | 2013          | \$132,015     | <b>\$406,007</b>   | \$679,999        |
| (b) Latest net worth estimate                                                                               | 2017          | \$626,014     | <b>\$1,095,506</b> | \$1,564,999      |
| (c) Estimated gain / loss, nominal dollars, 2013 → 2017 (4 years spanned)                                   | 2013–<br>2017 | –<br>\$53,985 | <b>+\$689,500</b>  | +<br>\$1,432,984 |

Gain Low = latest Low – earliest High; Gain High = latest High – earliest Low (widest possible spread); Mid = latest Mid – earliest Mid.

**Reliability flags (net worth):** none for these two endpoints. **Included in the recommended dollar-gain ranking.**

**Net worth by report year** (mid; Low–High)

| Report year | Assets (mid) | Liabilities (mid) | Net worth mid      | Low ... High              | Status / flags |
|-------------|--------------|-------------------|--------------------|---------------------------|----------------|
| 2013        | \$481,008    | \$75,000          | <b>\$406,007</b>   | \$132,015 ... \$679,999   | computed       |
| 2014        | \$784,008    | \$75,000          | <b>\$709,007</b>   | \$323,015 ... \$1,094,999 | computed       |
| 2015        | \$951,008    | \$75,000          | <b>\$876,007</b>   | \$422,015 ... \$1,329,999 | computed       |
| 2016        | \$1,436,008  | \$75,000          | <b>\$1,361,007</b> | \$792,015 ... \$1,929,999 | computed       |
| 2017        | \$1,170,507  | \$75,000          | <b>\$1,095,506</b> | \$626,014 ... \$1,564,999 | computed       |

- **What this is:** Net worth = Schedule A assets (each value range at its midpoint; low–high range shown) minus Schedule D liabilities (midpoints / ranges). **Low** = assets at range floors minus liabilities at range

ceilings; **Mid** = midpoints; **High** = assets at ceilings minus liabilities at floors. Low and High are outer bounds of the reported ranges, not likely outcomes.

- **What it excludes / understates:** exact values (only ranges are reported); a **personal residence is not reported as an asset** (although a mortgage on it may be listed as a liability, which then lowers the estimate); retirement and federal accounts (e.g. Thrift Savings Plan, defined-benefit pensions) are only partly or not reported; assets of excepted/blind trusts, cash held below reporting thresholds, vehicles, household goods and most spouse/dependent items exempt from reporting are not included; liabilities on a personal residence, revolving credit under thresholds and loans to family may be omitted by filers.
- **Open-ended top ranges** (e.g. "Over \$50,000,000") are counted at their **lower bound** and flagged, so such values are understated.
- The change is a change in **estimated net worth in nominal dollars** (no inflation adjustment). It includes salary, gifts, inheritances, business income and re-valuation as well as investment results, and it is subject to range-bracket noise; it is **not** an investment return and implies nothing about conduct.

**Read this first.** Members report asset values only as *ranges* (e.g. "\$15,001 – \$50,000"), never exact dollars. Every figure below is an **estimate** computed from range midpoints, not a measured return. Figures cannot be interpreted as investment performance, and they do not show wrongdoing or skill. Methodology and limitations are at the end and in the project README. Sources: public financial disclosure reports filed with the Clerk of the U.S. House of Representatives and/or the Secretary of the Senate (Senate eFD), linked below.

**Limited data – not ranked.** Only 2 comparable year-pair(s) could be computed (minimum 3 to rank). 5 annual filing(s) were usable (text-readable, validated OCR, or validated X-mark decoding) and 0 scanned/image-only filing(s) could not be used (older layouts failing validation, small amendments not integrated). See the method-per-year section below.

## Estimated year-over-year change

Bars: midpoint estimate; whisker: same-position floor/ceiling band. Axis clipped to -100%...+150%. Years with insufficient traceable holdings are omitted.

| Year (t-1 → t) | Opening value (mid) | Closing value (mid) | Income (mid) | Buys (mid) | Sales (mid) | Est. gain | Same-position band | Strict envelope | Traced coverage | Status / flags |
|----------------|---------------------|---------------------|--------------|------------|-------------|-----------|--------------------|-----------------|-----------------|----------------|
|----------------|---------------------|---------------------|--------------|------------|-------------|-----------|--------------------|-----------------|-----------------|----------------|

|           |           |           |         |     |     |               |                         |                   |     |                                                                     |
|-----------|-----------|-----------|---------|-----|-----|---------------|-------------------------|-------------------|-----|---------------------------------------------------------------------|
| 2013→2014 | \$448,507 | \$609,007 | \$1,302 | \$0 | \$0 | <b>+36.1%</b> | +31.9%<br>...<br>+49.0% | -80% ...<br>+152% | 93% | counted                                                             |

## Filings used

Each annual-report year uses one filing (most recently filed version among originals/amendments whose Schedule A row count is  $\geq 40\%$  of the largest). Electronic (text) PDFs are parsed. Scanned/image-only filings are OCR-read and used **only** if they pass the explicit validation gates described in the project README (value/income coverage, two-engine agreement, exact bracket snapping, page completeness, year-to-year position continuity); such years are labelled **OCR-derived** below. Scanned filings that fail validation are listed as “insufficient data – scanned”.

| Report year | Doc ID   | Type            | Filed     | Schedule A rows | Rows with unparsed value | Source (official filing) / SHA-256                                                                       |
|-------------|----------|-----------------|-----------|-----------------|--------------------------|----------------------------------------------------------------------------------------------------------|
| 2013        | 10001081 | House annual    | 5/1/2014  | 15              | 0                        | <a href="#">10001081.pdf</a><br>0b69c03e88af4c1f6f4d01663<br>afa2cef5c3d02a9b7721c27cc4<br>f5e2e59766759 |
| 2014        | 10006660 | House annual    | 5/11/2015 | 15              | 0                        | <a href="#">10006660.pdf</a><br>ae4b5d805743a3ce00759691e<br>f9e409d63ec5f9c82f0e2a02e9<br>3e63301ffdf00 |

## Method (summary)

1. Schedule A asset rows are read from each annual report; the dollar range for each row is converted to its midpoint. Open-ended top ranges ("Over \$50,000,000") are excluded from the traced set and counted as a coverage loss.
2. Positions are matched year to year by owner code (self/SP/DC/JT) + normalised asset name. A position that appears only in year t is included only if Schedule B shows a purchase of it in year t (opening value 0); a position that disappears is included only if Schedule B shows a sale (closing value 0). Otherwise it is excluded as unexplained.
3. Estimated gain = (closing – opening + reported income – purchases + sale proceeds) ÷ opening, all at midpoints, for the traced positions. "Capital gains" income is not added again (it is already in value change and sale proceeds).
4. A year counts only if traced opening value ≥ \$50,000 and traced coverage ≥ 60% of the opening midpoint. A member is ranked only with ≥ 3 such years (exactly 2 = "limited data", shown but unranked). Average = geometric mean of (1+yearly estimate).

## Limitations

- Ranges are wide (up to a factor of 5 or more, and up to \$50M+ open-ended); a holding can move between ranges without any real change in value, and stay in a range while moving materially. Yearly estimates are therefore noisy; the "strict envelope" shows the mathematical worst/best case and is typically wider than ±100%.
- Purchases and sales are only disclosed as ranges and only for transactions over \$1,000; partial sales, dividend reinvestment, spousal/dependent accounts and retirement-plan funds are reported inconsistently. Excepted/ blind trusts, personal residences and certain pensions are not reported at all.
- Filers sometimes change how they list assets (e.g. listing a brokerage account vs. its individual holdings), which can make positions untraceable across years; these are excluded rather than guessed.
- Asset values in an annual report are as of Dec 31 of the reporting year; the report year t–1→t covers that calendar year. Late or amended filings are used when filed; extensions can delay them.
- The text of these reports is machine-parsed from PDFs; parse errors are possible. Every number links back to the cited filing. This is not investment advice.

- Use of these filings is restricted by 5 U.S.C. § 105(c) (no unlawful, commercial or credit-rating purpose, and none for solicitation of money).
